

Learn to ask **CONNECTION** Questions

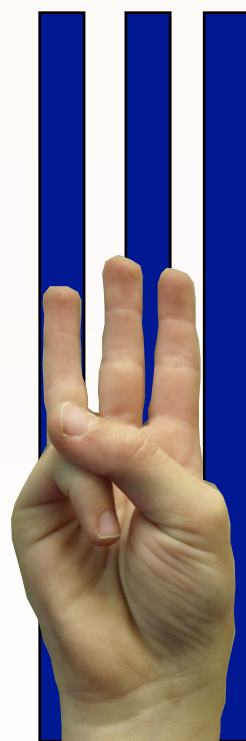

Prestructural

A few facts, not connected.
My thinking misses the
success criteria. No
organisation. I need teacher
help to communicate ideas.

Unistructural

Simple connections made
between facts. Identified a
number of ideas, but overall
meaning is missing. I can
identify and memorise.

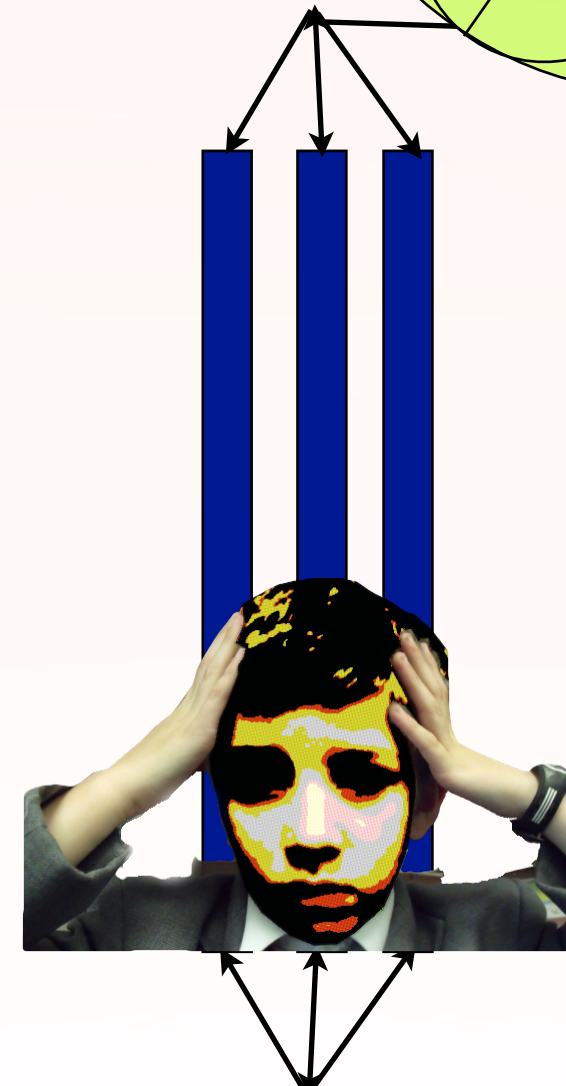

Multistructural

A list or sentences of several
relevant ideas. Mainly knowledge
telling. Several aspects of the
task were picked up but not well
carried out. I can describe, list,
combine, and classify.

Relational

I can outline a number of ideas and
connect them together. My details
connect to my conclusions. I can
compare/contrast, explain causes,
integrate, analyse, relate, and apply.
I can formulate questions.

Extended Abstract

I can outline a number of ideas and
connect them together. I can then
look at these ideas in a different
way or use them in a different way.
I can theorise, generalise,
evalutate, predict, hypothesise,
reflect, and create.
